

# TCFE European Championships 2008 Results

Linköping 7<sup>th</sup> -9<sup>th</sup> November

The TCFE European Championships 2008 had more than 200 participants from 17 European countries.

It was possible to compete in form events such as solo form, group form and Choreographed Confrontational Demonstration. It was also possible to compete in three different pushing hands event (Fixed Step, Moving Step and Free Moving Step).

For more information please see the rules which can be found on the official website: <http://sweopen.se/ec/>.

## Some notes on the results

In events with more than 3 participants there were three medals (Gold, Silver and Bronze). In events with 3 participants there were only two medals (Gold and Silver). In events with 2 participants there were only one medal (Gold).

The scoring of the form event is done by three judges who give points from 0 to 10 with one decimal. The score displayed in the tables below is the calculated average with two decimals. If two competitors have equal score the highest and the lowest score is disregarded, and the middle score is compared. If this is also equal the participants will perform again.

The pushing hands events were done in pools where all participants in a pool met each other. The winners went on to a final pool to decide the winner of the entire event. The scores displayed in the tables are ranking points. Each match won is worth three ranking points, each draw is worth 1 ranking point. If two competitors have the same ranking points, the total score from all the matches are compared.
